

## Zoom Virtual Background setup

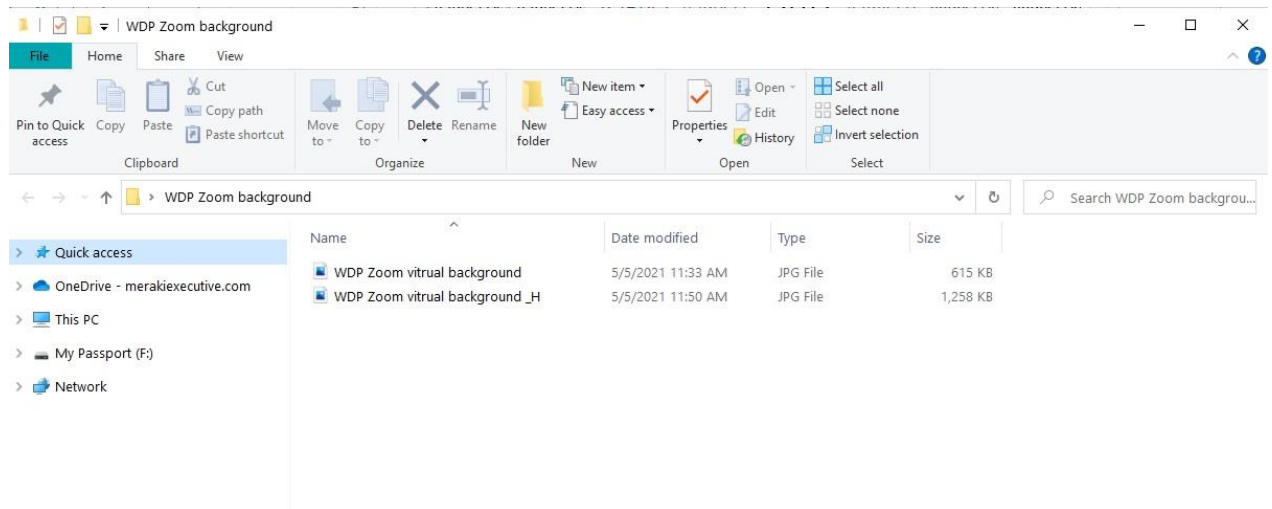

- 1) Save the image “WDP Zoom virtual background” to your computer
- 2) Click “Choose virtual background” at the bottom left

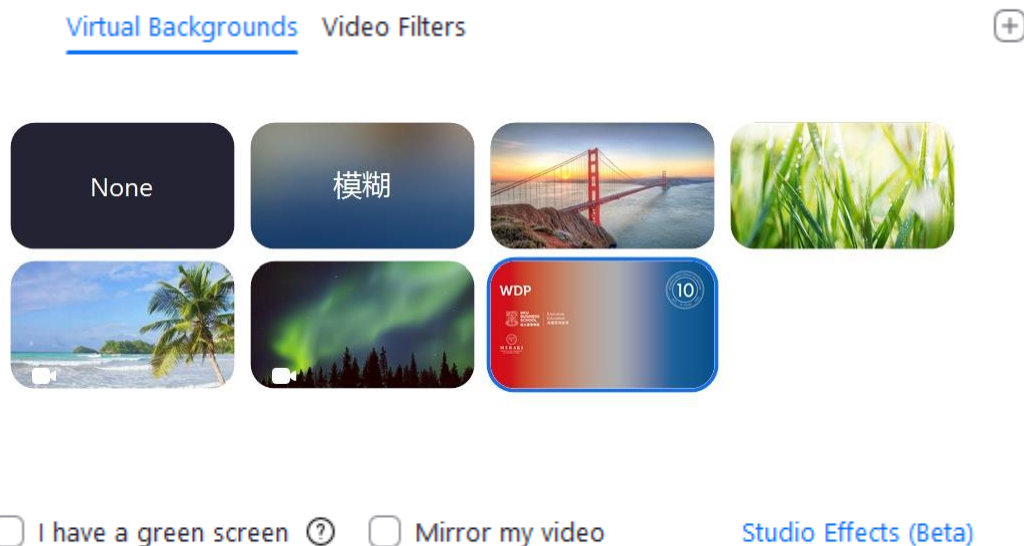

- 3) Click “Add image” on the right + icon

4) Open the “WDP Zoom virtual background” image

5) Now the “WDP Zoom virtual background” image should be added and become one of your virtual backgrounds. Select the image, close the window and turn on your camera. Do NOT click “Mirror my video”.

6) If you want to cancel the WDP virtual background, repeat Step 2-3, and then choose “None”.
