# Women's Directorship Programme

Meraki Executive Search & Consulting and The University of Hong Kong

Gender-balanced boards are proven to result in greater business success, and yet women are still hugely underrepresented in boardrooms across the world. ## **Programme Modules**

### Session 1

#### Module 1. The Roles And Responsibilities Of **Board Members**

The first module of the programme provides participants with perspective on the roles of the board and supporting committees, plus practical insights regarding the roles and responsibilities of independent non-executive directors (iNEDs) in terms of the finance, audit, risk oversight and remuneration committees. This module will discuss the typical responsibilities of the nomination committee and explore the most effective processes for making board appointments.

#### Module 2. Strategic Leadership

To achieve organisational goals, board directors as leaders, must collaborate with people across and outside of their organisational boundaries - serving to acquire new ideas and resources. This module will explore strategic thinking, focused on the benefits of various business models and their evolution, as well as understanding the key issues facing listed companies, and what and how to advise the board and managing executives.

#### Module 3. **Persuasive Communication And Conflict Resolutions**

This dynamic, interactive communications module will engage participants in a full day of intense skills development, to enhance understanding and awareness of self and how to communicate and influence others. The concepts of trust, power navigation, executive presence and crisis communication styles will all be explored. This module enables participants to contribute maximum value to their board by communicating effectively under pressure, whilst remaining composed, data-driven and credible.

# Session 2 Module 4. **Securities Market Regulation**

This module equips participants with a working knowledge of securities regulation and directors' obligations and responsibilities with respect to the public companies they oversee. After working through case studies and examples from major public markets, participants will gain a better understanding of the often-problematic issues that regularly present themselves to directors of public companies

### Module 5. **Ethics And Compliance**

This module focuses on moral philosophy, organisational psychology, and cognitive biology, with an emphasis on communication and ethical reasoning skills that impact on professional performance. Two primary areas of business ethics will be highlighted - firstly how directors can utilise "moral architecture" to build mechanisms that help employees and executive teams avoid unethical behaviour. Secondly individual ethics will be discussed, reviewing universal cognitive biases, exploring how to best motivate people and how we can improve ethical decision-making.

## Module 6 **Board Simulation Exercise**

This simulation exercise enables participants to put lessons learned throughout the programme into practice. This module will explore how to operate legally, ethically and efficiently in the current economic and legal environment.
